

A PATHWAY TO SUCCESS

Leading Practices for Nonprofit Organizations

With over 800 successful implementations, NetSuite has a deep understanding of nonprofit organizations across all sectors and the many challenges they face. As the pace of change accelerates, nonprofits are struggling to keep up—especially for those still relying on outdated system infrastructure. As nonprofits strive to improve operational performance and surpass constituent expectations in an increasingly competitive environment, they are struggling with:

- Manual data entry and processes.
- Reporting metrics based on unreliable data.
- Divided global operations.
- Lack of constituent insight.
- Limited cash visibility.
- Ineffective grant and resource tracking.

NetSuite:

Built with leading practices for nonprofits

- Full visibility across the organization to operate at the speed of modern business, drive results and scale.
- Learnings and experience from 20,000 deployments over 18 years into a proven methodology.
- Nearly two decades of expertise across over 800 nonprofit deployments to drive value on Day 1.
- 250+ pre-built reports and pre-configured roles with dashboards and business intelligence metrics.

Nonprofit Organization Evolution

A strategy for nonprofit organizations to meet the challenges of today's dynamic times

NetSuite's Proven Methodology for Nonprofit Success

A Proven Path to Success for Nonprofits

NetSuite delivers a unified and phased pathway for our customers to succeed and scale their organization. Here is how it works:

- The first step is all about making sure nonprofits have full, real-time visibility of their financial data. NetSuite does this through ensuring automated close and real-time consolidation, clear reporting on grants and funds, and role based interfaces, KPIs and dashboards. NetSuite has seen customers improve gross margins 1–5%.
- Once there, nonprofits are in a better position to consolidate their disparate systems through seamless global operations and a full view of their constituent activity.

This phase also includes financial planning and analysis, accounts receivable detail and fund accounting.

- From there, they are freed from the constraints of their legacy systems and are ready to tackle challenges such as improving the constituent experience, conducting unified billing and preventing revenue leakage to truly enhance operations.
- Ultimately, the focus turns to more disruptive strategies such as developing new business models and building impactful relationships through connecting dollars to outcomes. NetSuite has seen its customers improve their actionable insights by over 56%.

Delivering Transformative Results

Solution providers will often talk about ‘roles’—however, NetSuite delivers all the tools needed from day one so that anyone can get up and running quickly with the right workbench to be successful. Whatever the job function, it will come pre-configured with all the KPIs, reminders, reports and value-driven dashboards for daily and strategic needs—proven from years of real-world use by thousands of people in similar roles at nonprofit organizations.

NetSuite has packaged nearly two decades of experience from hundreds of nonprofit deployments into a set of leading practices that paves a clear pathway toward mission success and is proven to deliver rapid value to the organization.

Are you ready to put NetSuite leading practices to work and take your organization from zero to cloud in 100 days or less?

“Because we have so many transactions and donors, it’s fantastic to have such a robust CRM and accounting system that lets us track where a donation is going and how it’s used. NetSuite.org has been a huge help for us.”
